

COMMUNICATIONS REPORT, AGM 19/10/20

What we do:

- We keep residents informed of relevant local matters, via email, website and occasional leaflet drops.
- This year we expanded our remit beyond local matters, and used our system to send government and Council messages regarding the response to the Covid crisis directly to our members.

Since the last AGM:

- We responded to the Covid crisis by using our established communication network to pass on government Covid-19 Health Communications Stakeholder Support information, and DLR Council information, to our members. We sent out 11 such emails containing this information, and a number of leaflet drops to those who do not have email.
- We were consulted by the Council's PPN as to our perception of how things were going on the ground, and were asked for feedback regarding getting information to residents.
- We used our communication network to set up a local Covid Volunteer group
- We also sent out 28 emails with general local news and other items of interest sent to us by members
- We updated our website with all these items
